

TECHNICAL CONTENT WRITING

Hire technical content writers in India at cheap price having more than 13 years of experience to work on your project

There are several reasons and advantages behind selecting the technical content services to professional sectors. Technical writing is regarded as one of the most difficult tasks, as this task needs guides and writing manuals as well a hell lot of research. Although you know all specifications related to your project or service, you just can't afford to read whole manual and write technical content. Hence, it is very essential for you to hire a professional

technical content writer or whole team of writers to work for your company. At Thoughtful Minds you will get technical content writers with over 13 years of experience and capability to do intense research to work on your project. Also you can interact with our writers over phone, Skype or Live Chat option to explain the requirements and to get the work done in the manner you want. Have a look at a sample of technical content by one of our experienced technical content writers:

How to Input Validation set Timeout in ReactJS?

In order to have a flabbergasting effect of the animation presented in front of the viewer, it is essential to trigger the components of animation in the right manner. When you are working on a popular transition component framework like [ReactJS](#) then it is crucial to place the [set Timeout\(\)](#) function in a precise fashion. That is due to the fact that in a complex animation there can be multiple levels where trigger is going to be required without compromising with the exact timing.

So learning how to input validation set Timeout in [ReactJS](#) is critical if you wish to progress from being a novice to becoming a pro in the field of animation.

Introduction

What is the price charged for Technical Content Writing?

Technical content writing is usually expensive as it mainly depends on research and so number of working hours usually determine the cost for the same. However, still our prices are the best in the market and even cheap as compared to charges charged by freelance technical content writers. We

charge INR 400-500 or \$7-\$8 per 500 words which is the cheapest price for technical content writing in the world.

Worried for the quality?? You should not, as we have experienced writers who are selected after intense selection procedure. Moreover our training department is strong enough to train our existing employees and to help freshers get training to fit into our requirements.
